NEW

Ei Classic
**SALTWATER
CHLORINATOR**

Supplied by:

INSTALLED AND WORKING FASTER THAN YOU
CAN SAY EASY...

The Ei Classic Series now represents a revolution in the entry level salt chlorination category, which boasts the latest in cutting edge technology featuring reverse polarity. Using the principles of electrolysis this Saltwater Chlorinator will convert ordinary saltwater into 100% usable chlorine to safely and effectively sanitise your pool.

Much of the technology in this range comes straight from the flagship Clearwater Tri Series, making these entry level reverse polarity chlorinators class-leading!

The Ei Classic Salt Chlorinator ensures a healthy and sparkling pool and allows you more time to actually enjoy it.

It is compact, looks fantastic, and is packed with great features...

CLASS LEADING FEATURES

- Automatic reverse polarity: Low maintenance unit
- Warning display LEDs: No Flow, Low Salt and Output
- User friendly interface
- Long Lasting, Titanium electrodes with an exclusive alloy coating
- Incremental chlorine output level selection
- Compact & great looking
- 2 Year Manufacturing Defects Warranty

Product Comparison chart		
	MINI	MIDI
Product Code	W384610	W384620
Maximum Pool Volume	Up to 60 000 lts	Up to 90 000 lts
Switch mode or Transformer Based	Transformer	Transformer
Grams per hour (max)	12g/hr	20g/hr
Colour	Grey with Clear Electrode	Grey with Clear Electrode
Manufacturing Defects Warranty	2yr	2yr
Reverse Polarity	Every 5 hours	Every 5 hours
Cell Housing	Transparent	Transparent
Interface	LED's	LED's
Salinity Required	4g/L	4g/L
Power Consumption	70W	110W
Nominal Output Current	2.5A	4.0A
