

TC Range

Ceiling mount extractor fan

Key features:

- Quiet operation.
- Ball bearing motor.
- Easy cleaning.
- Removable grille.
- With 3 plastic blades.

Packaging:

	TC200	TC250
Length:	310mm	360mm
Width:	140mm	145mm
Height:	315mm	360mm
Weight:	1.3kg	2.1kg

These fans have a stylish design with an easy to clean, removable white grille. It can be used in kitchens, bathrooms or offices.

The TC range is suitable for use with uninsulated, flexible ducting or can extract directly into the ceiling void, provided that air is able to escape to the atmosphere.

Do not install over a direct splash area or direct heat. Clearance of 30cm above the blades for optimum functioning is required.

PLEASE NOTE: do not install in wall or window as the bearings are not designed to handle vertical installation.
