Home Connect

- Discover the new way of controlling home appliances: by app. The Home Connect app allows you to access the appliance

from anywhere - at home using WiFi, when away from home using the mobile phone network.

- Remote start: Select and configure beverages in the app, then remotely start the beverage preparation
- Coffee recipes: The app offers a variety of recipes involving coffee, which can be transferred to the appliance or a Home Connect capable oven - from Espresso Crème brûlée to saddle of venison with coffee crunches
- Coffee know-how: The app includes interesting knowledge around the topic coffee, e.g. bean varieties, harvesting methods or roasting techniques
- User manual: A digital user manual is ready to hand at all times in the app
- Customer service: In case of technical problems, the A01 customer service is able to access the appliance virtually - if you want so
- Security: Security is of top priority at Home Connect. The Home Connect app has been tested and certified by TÜV IT. And the encrypted data transfer via Home Connect protocol protects against unauthorised access.
- The availability of the Home Connect functionality depends on the availability of Home Connect services in your country. Home Connect services are not available in every country – for further information please check www.home-connect.com
