

Intelligent Power Mate iSitePower-M

iSitePower-M is a small hybrid power solution. It integrates grid, solar, DG and battery. It is widely used in off-grid and unreliable grid areas and provides reliable and stable backup power for residences, apartments, shops, etc.

Application scenario

Household scene:

apartment, villa

Industrial & Commercial scene:

shop, restaurant, office

iSitePower-M

24-hour Continuous Power Supply

Extraordinary Experience

Secure and Reliable

INTELLIGENT POWER MATE
ISITEPOWER - M

Modular architecture, Smooth expansion

Support 3pcs paralleled, max. 18kVA | 45kWh

Basic parameters	dimensions	700(W) x 1471(H) x 158(D) mm(5kW@15kWh)
	weight	17 kg for each power module and 50 kg for energy storage module
	Protection level	IP65
AC input (Us and D.G.)	AC mode	Single phase
	Current	30 A max.
	Frequency	50 Hz/60Hz
PV input	Voltage	90~435Vdc
	Power	Max. 5.5kWp
AC output	Voltage	Single phase 220V AC
	Power	6kVA/5kW
Power capacity	Single	Support max.6 pcs batteries, 5kW@max.30kWh
	Parallel	Support max.3 power modules in parallel, each power module supports max. 3 pcs batteries, max.3*(5kW@max.15kWh)

Recommended package

Office

15kW system

Aircon
Computer
Printers
Projector
...

House

10kW system

Aircon
TV
Electric fan
Refrigerator
...

Small shop

5kW system

Aircon
Cashier
Fan
Microwave oven
...

* Recommended configuration only for reference

01
FEATURE

24-hour Continuous Power Supply

Multi-energy access scheduling, no-perception switching

Solar energy, mains, diesel generator, and battery
multi-energy scheduling
Intelligent Priority Mode Management

Energy switchover without perception <10ms
24 hours continuous power supply

Fast charge in 2 hours, Use electricity as you like

0 power supply interruption

Portable power supply

Household appliances

Office equipment

02
FEATURE

Extraordinary Experience

Sleep-level noise, enjoy quiet

Natural heat dissipation

High-efficiency heat dissipation without fans

Silent design

<29db Operating noise

* Recommended ISO base:
Sleeping environment < 30 dB

Efficient heat dissipation structure & material

Closed noise
reduction design

Matrix heat dissipation

Mobile APP Management

Remote link, real-time online APP

Home

On-transit

Office

Full link information of power generation, storage and consumption

Full device

02
FEATURE

Secure and Reliable

Multiple protections to ensure power generation and safety

IP65 waterproof and dustproof

Indoor and outdoor compatible deployment

The most stable lithium battery LFP
,no fire risk

System-level security certification
,safe to use

0V
fast shutdown, ensuring O&M person life safety

Adapts to complex power grids and resists shock current

Anti-electric grid jump and high voltage

220V~430V, wide voltage jump resistance

500V, high-voltage resistance

Anti-Equipment Start-up Flow Shock

1.5 times of equipment startup current shock

* Air conditioner, washing machine, motor
