INTELLIGENCE

RA 6300 iQ

ALPHA iQ™ PRO

1 PERSONALISED CLEANING

With its "Sensor Nav System™", the ALPHA iQ™ robot cleaner identifies the configuration of your pool to optimise its movements and cleaning time.

2 EFFECTIVE SUCTION

Its patented cyclone suction is extremely powerful and long-lasting. Thanks to its extra-large suction capacity and very fine filtration system, the ALPHA iQ™ optimally collects all types of debris.

3 EASY-TO-USE

Thanks to its patented Lift System, ALPHA iQ™ is lighter when removing it from the water. Its simple access to its filter and the visibility offered by its transparent window make it easy-to-use in all circumstances.

4 INTUITIVE CONTROLS

Monitor cleaning progress at any time through the intuitive interface of the iAquaLink™ application. ALPHA iQ™ is upgradeable thanks to possible optimisations and automatic remote updates.

AVAILABLE ACCESSORIES

Very fine debris filter, Fine debris filter,
Large debris filter, Protective cover

As it's **autonomous**, the **electric robot cleaner** does not need to be connected to the filtration system. It collects debris directly in its own filter canister. Equipped with true artificial intelligence, it can **reach every corner of the pool, climb walls and clean the waterline**. Now able to connect to your WiFi network, it can be controlled from your smartphone through the iAquaLink™ application.

2+1 YEARS*
WARRANTY

**+ 1 additional year if the robot is paired with the iAquaLink™ application.
