Dimensions (mm) Unit:
(H) 415 (W) 380 (D) 400

Net Weight:
17.2Kg

Total Input Power:
110W

Storage Volume:
2Kg

Voltage:
230V/50Hz

**Engineered for the
African climate**

Ice Making Capacity:
15Kg/24h

Rated Current:
1.0A

Note: Water treated with Reverse Osmosis purification often gives a false water indicator. Rather use filtered mineralised water. Ice cycle time is dependent on water temperature. Clean and drain the unit at least once or twice a month. Lemon juice or 10ml vinegar can be added to the water to help the cleaning process. Notice: If your Ice-maker indicates a low water level despite being full, it may not detect certain purified water types. Simply add a pinch of salt to the water reservoir to enhance sensor accuracy. This is a common fix when using reverse osmosis water.

FEATURES

- ✓ Bullet Ice
- ✓ 3 Bullet Ice Size Selection
- ✓ Bullet Ice Size (mm): S 25, M 28, L 30
- ✓ Bullet Ice Per Cycle: 12
- ✓ 'Ice Full' Sensor
- ✓ Stainless Steel Finish
- ✓ Refrigerant: R600a
- ✓ Add Water Function
- ✓ Diagnostic Check on Start up
- ✓ Drain Point
- ✓ Portable
- ✓ Removable Ice Bucket
- ✓ Stainless Steel Hinge Pins
- ✓ Adjustable Levelling Feet (+/- 10mm)

Suggested Applications: Office, Apartment, Kitchen, Home Bar, B&B, Pub
