

ITS 7.5kw R32i

INVERTER Swimming Pool heat Pump

Life is more fun
with a heated
pool

Inverter Technology

GENERAL SPECIFICATIONS	
Model Number	ITS-7.5HP32i
Heating Capacity (A)	3.760-7.500kW
Heat Power Input	0.450-1.290kW
Heating current input (A)	2.13-5.67A
Heating Capacity (B)	2.380-5.140kW
Heat Power input	0.500-1.220kW
Heating current input (B)	2.34-5.36A
Rated input power	1.57kW
Rated current input	6.83A
Power Supply	220V/1/50Hz
COP *	12.5
Casing	UV stabilised plastic
Water Connections	G1½" (50mm)
Noise **	38-47dB
Net Dimension (WxHxD) mm	935 x 608 x 360
Net Weight	40kg
Water Flow	3.0m³
Refrigerant	R32

ITS Pool Heat Pump Inverter

- WiFi Enabled
- Energy Efficient
- Eco Freindly R32 Gas
- Low noise silent fan technology
- 10 year spare part support guarantee
- UV resistant casing
- Highest COP rating of 12
- Heating & Cooling function
- More than 10 protection functions
- Titanium heat exchanger
- Five year limited warranty

Safe & reliable - ITS Heat Pumps have been designed by a team of highly qualified engineers and boast many safety features ensuring reliable operation for many years.

R32 GAS - Uses more energy efficient & enviromentally friendly R32a gas resulting in up to 75% reduction in GWP compared to R410a that is being phased out.

Easy to control LCD display with built in WiFi - Each unit comes with an easy to control LCD screen which intelligently control the heat pump to ensure the heighest possible efficiency and includes WiFi smart application control.

10 Year spare part support guarantee - We guarantee that we will have all the spare parts required to maintain and repair units available for a minimum of 10 years after the sale of the unit.

WiFi Smart App Control

Set your desired Pool temperature from your smartphone
